

PROFILE

Hi,
I'm looking for a Career change more suited to my skillsets in information technology and networking.

I'm Honest, I enjoy problem solving and troubleshooting... I know it's riveting...

I build my own Pc's and I have programmed homemade drones for fun

Digital media is a big thing for me from 3d modelling to graphics design // Autodesk 3ds max, Photoshop, adobe illustrator, adobe flash, Unity and other programs.

DAVID JOHNSON

EDUCATION

In progress Honors degree in IT and design

2018 - 2024

I'm currently putting my PC skills towards a qualification, I have just completed TM111 and I am working towards TM112 around a full-time laboring job

West Notts College

2010 - 2011

Multimedia – Merit (port-folio available) I studied graphics design advertisement and creative thinking

WORK EXPERIENCE

JPB, Reinstatement

2017–present day

I currently work reinstating with tarmac

Greene King, Cross-trained

2014–2017

Very fast paced highly stressful job where I had to be able to problem solve, communicate, Run and expertly prepare food in a busy restaurant (love the pressure)

Save the children, Fundraiser

2012–2012

As a fundraiser on the streets my job was to get passerby's to sign up to save the children (the exact company name I can't remember)

SKILLS
